SUMMARY

a recent graduate in Bachelor of Computer Applications (BCA) with a strong interest in creative and people-oriented fields. While my academic background is rooted in technology, my passion lies in areas where I can blend creativity, communication, and analytical thinking. I am deeply interested in creative fields like Graphic Design and UI/UX Design.

PROJECTS

FitWell: is a personalized styling app that helps users discover clothing and accessories that best suit their unique body type. By simply uploading a photo and answering a few quick questions, users receive curated recommendations on what styles, colors, and accessories enhance their overall look. The app focuses on promoting body confidence and individuality by providing practical, easy-to-follow fashion guidance for everyday wear as well as special occasions.

MyTurn: is a simple mobile app that helps customers avoid long and confusing bank queues. Through the app, you can take a digital token before or after arriving at the bank, see how many people are ahead of you, and get an estimated waiting time.
